

HANDOFF — 10 AUGUST 2026

WHYUS^{.co} homepage *v2.*

The short-form reel block is gone. In its place, two long-form animated showreels now open the second screen — straight after the numbers, straight before the three ways to work with us.

DELIVERABLE

index.html + 2 web-encoded reels
+ 2 poster frames

SECTION ORDER

Hero → Numbers → **Our work** →
Offerings → Voices → CTA → FAQ

REELS

Studio showreel — 0:59
Co-founder film — 0:36

What changed

REMOVED	The old two-card short-form reel block (files/reel2.mp4 and files/reel3.mp4) is gone, along with its 9:16 grid styling.
MOVED	Our work now sits on the second screen — directly after the numbers and directly before "Three ways to work with us". It used to sit below the offerings.
ADDED	Two long-form animated reels side by side: the studio showreel (0:59) and the co-founder film (0:36).
FIXED	The supplied 9:16 co-founder file was a 16:9 render letterboxed into a vertical canvas — black bars top and bottom for all 36 seconds. It was cropped back to its true 16:9 frame, so both reels now match.
PLAYBACK	Click a card to play with sound; a Sound on / Sound off chip appears while playing. Only one reel plays at a time, and a reel pauses itself when scrolled out of view.
NAVIGATION	Nav order is now Work → Offerings → Voices → FAQ, matching the new page order. The hero "Watch Showreel" button and the footer "Work" link both jump to the new section.

WORKOFFERINGSVOICESFAQ

BOOK A CALL →

What our clients

actually say.

“Working with WHYUS was the first time I felt like the content actually sounded like me. They didn’t just edit — they understood the story I was trying to tell, then made it sharper than I ever could.”

RK

Rohan Kapoor

Founder, Kapoor Ventures

“I was sceptical about remote production. Three reels in and I had my highest-performing content ever — 38K views on a video we made entirely over WhatsApp and Google Drive. These guys just get it.”

SB

Simone Beaumont

CEO, Studio SB — London

“Hired them for a content calendar. Stayed for everything else. Within six weeks we had a full production rhythm, better hooks, and actual DMs coming in from Instagram. Genuinely rare to find a team this dialled-in.”

AM

Aakash Malhotra

Co-founder, Brew & Co. Café

“Before WHYUS, our reels looked like every other café account. Now we have an actual identity online — better hooks, sharper edits, and footfall that we can directly trace back to specific posts. Worth every rupee.”

VV

Vansh Veshle

Founder, Iron Café

Files delivered

index.html	The full page — drop-in replacement for the current whyus.co.in homepage
files/showreel-brand.mp4	Studio showreel, 1920×1080, 0:59 — web encode, 6.9 MB
files/showreel-cofounder.mp4	Co-founder film, 1920×1080, 0:36 — web encode, 2.8 MB
files/showreel-brand-poster.jpg	Poster frame for the studio showreel
files/showreel-cofounder-poster.jpg	Poster frame for the co-founder film
_preview/	The screenshots used in this PDF (not needed on the server)

To publish: upload index.html and the whole files/ folder to the root of whyus.co.in, keeping that exact structure — the page loads the reels from files/showreel-brand.mp4 and files/showreel-cofounder.mp4. The old files/reel2.mp4 and files/reel3.mp4 are no longer referenced and can be deleted.

Masters: the 4K originals stay untouched in Downloads/finals/. The files here are web encodes (H.264, faststart) so the page stays fast — together they are under 10 MB.
